

## Controller UDMA 133 Raid

### Description

The Delock PCI Controller card expands your PC by two IDE UDMA-133 ports. By optional IDE cables you can connect up to 4 hard drives to the 2 ports. The Controller possesses Raid 0,1 and 0+1. Thus you can mirror files to provide a higher security as well as stripping for a higher access speed.

Ref. 70098  
EAN 4043619700981
