

FDB: Fluid Dynamic Bearing

Dynamic fluid pressure provides a frictionless floating shaft

❖ Long Operating Life>>

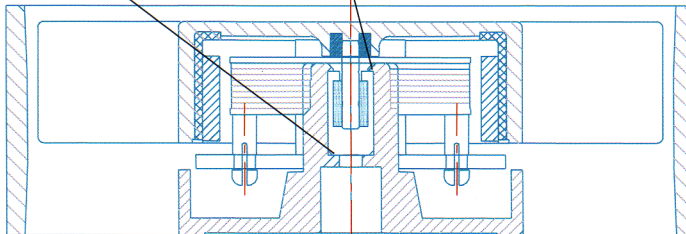

L10/25°C ≅ 80000Hours

L10/40°C ≅ 60000Hours

❖ High Reliability>>

Less than 3% fan rotation change

Less than 2% fan current change

- High air flow rate (CFM)
- High static Pressure
- Low noise
- Stable rotation speed(RPM)
- Minimum noise variation
- Long operating life
- High reliability
